

Grain-Free Vanilla Extract

Makes 2 Cups

2 Cups Organic Tequila Blanco

2 Vanilla Beans Scraped

Pour the tequila into an airtight glass jar and add the vanilla beans seeds. Put on the lid and shake the contents to incorporate everything together. Put the jar in a dark place and give the jar a shake each day. The vanilla extract will be ready to use after 6 weeks. Store in a cool, dry place and it should last indefinitely.

Note

Blanco Tequila ensures your extract is grain-free. Be sure to use 100 percent agave tequila, which guarantees there is no added sugar or water.
